General Requirements of Students for HSC Course

To be determined to have met the requirements for completion of HSC Courses, students must be able to provide evidence to the principal that they have:

NESAs Terminology from Assessment, Certification & Examination (ACE) manual:	For students at Muirfield HS this means:
<p>“Followed the course developed or endorsed by the New South Wales Education Standards Authority (NESAs)”</p>	<ul style="list-style-type: none"> • Following the relevant NESAs syllabus and participating in the learning activities set by the teacher
<p>“Applied themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school”</p>	<ul style="list-style-type: none"> • Attending all timetabled lessons unless there is a valid, explained reason • Making a genuine attempt to complete the greater majority of tasks set in class or at home to the best of their ability • Actively participating in the learning experiences provided • Completing mandatory practical activities
<p>“Achieved some or all of the course outcomes”</p>	<ul style="list-style-type: none"> • Demonstrating in class that they have learnt concepts, ideas and skills in that course to at least an elementary level (as determined by the class teacher) in assessment tasks and other activities in that course

Failure by a student to meet any of these requirements may result in them being issued an “N determination” warning letter.

The issuing of 3 “N determination” warning letters by the school in any one subject may result in a student being declared to have not met course requirements.

NESA = NSW Educations Standards Authority (www.educationstandards.nsw.edu.au)

Assessment Tasks

- 1.1** Each student is expected to complete and make a genuine attempt at all assessment tasks.
- 1.2** Assessment tasks take precedence over all other school activities, including excursions, competitions and sporting events. Under special circumstances, the principal may grant exemptions.
- 1.3** Assessment tasks take precedence over family holidays. Absence due to family holidays may result in a zero being awarded for assessment tasks.
- 1.4** Assessment tasks must be handed in personally to the class teacher or subject head teacher in their staffroom. Unless otherwise specified, all assessment tasks must be handed in as hard copies.
- 1.5** School based assessment for the HSC Course will begin Term 4, 2021 and finish approximately Week 5, Term 3, 2022.
- 1.6** Assessments can only be based on the Year 12 course, apart from exceptions noted by NESAs.
- 1.7** All work done at home must be the student's own work. The progress of home assessment tasks will be checked by the teacher where appropriate. Work submitted containing work not done by the student may receive zero marks.
- 1.8** All teachers will display laminated copies of their classes' assessment schedules in their classroom.
- 1.9** Exam type tasks are those for which no additional question details have been provided. Additional question details may include such things as marking criteria, an open book task, or the question being given beforehand.
- 1.10** Students are not permitted to be absent from timetabled classes to prepare or complete work for other subjects. If they do so, they may be awarded zero marks for the assessment task.
- 1.11** The maximum number of assessment tasks in Year 12 shall be no more than 4, including their Yearly Examination.

Completion of Assessment Tasks

- 2.1** Work submitted late will receive a zero mark unless an illness misadventure application is approved. Illness /Misadventure application must be submitted to the Head Teacher Senior Studies within 7 days of return to school. The task must be completed or submitted on the first day back to school or the first day not covered by the medical certificate.
- 2.2** Broken USBs, computer, email and printing problems, will not be accepted as valid excuses for late work. School staff will not print assessment tasks. Students unable to attend school due to illness must email the task to the school by the date and time published on the assessment notification sheet. Students remain responsible to print and submit the task.

The school's email address is: muirfield-h.school@det.nsw.edu.au

Please mark email topic: *Attention: (Class Teacher Name)*

- 2.3** If a student is absent from an assessment task, a doctor's certificate, as proof of illness must be submitted. Students will be expected to complete the task on the first day of their return to school. The student has the responsibility of reporting to the head teacher of the subject concerned on their arrival at school on the day they return in order to arrange the task's completion. Incidents of illness leading to absence from an assessment task will be considered by the Senior Review Team.

If a student is absent and does not provide a doctor's certificate, a zero mark will be awarded.

The doctor's certificate must cover absence on the due date and any subsequent days.

- 2.4** If a student is absent due to illness/misadventure on the due date for submission of an assignment, the assignment must be submitted on the day of return (even if the student does not have the subject that day). If the task is incomplete due to the severity and length of the illness, submission of the incomplete task is still required. Failure to do so on immediate arrival to school will be considered late work and no marks will be awarded. Students must complete Appendix A form.
- 2.5** Difficulties in preparing for assessment tasks will not usually be considered for compensation. In exceptional circumstances, the Senior Review Team will consider reviewing results gained under adverse conditions.
- 2.6** If a student knows beforehand that they will be absent on the date of an in-class task, the school should be contacted, and their Deputy Principal informed well prior to the date. Assessment tasks should be completed and submitted before the due date unless other arrangements are made with the head teacher of the subject. Should a task be submitted late then a doctor's certificate must be submitted.

- 2.7** If a student is ill during an in-class assessment task they must inform the supervising teacher and see their Deputy Principal immediately after.
- 2.8** If a student becomes ill during an in-class assessment task the head teacher will decide whether an estimate or a substitute task will be given.
- 2.9** If, for any reason, an assessment task produces invalid or unreliable results an additional task may be given. Both tasks will be included in the final assessment mark but the weighting of the first task will be reduced. Students will be informed in writing if this occurs. The value of the task weighting, however, will not change.
- 2.10** Students must attend all classes on the day an assessment task is due. Students are not permitted to turn up late because they have been working on the task. No marks will be awarded if this occurs unless the necessary documentation is provided. (See 2.3)
- 2.11** In the event of illness for an in-class assessment, on their first day of return, students are expected to see the teacher or head teacher of the subject to arrange a time to sit the task. An illness misadventure form with a doctor's certificate attached must be submitted within 7 days of returning to school and handed to the Head Teacher Senior Studies.
- 2.12** In the event of a misadventure for an in-class assessment, on their first day of return, students are expected to see the teacher or head teacher of the subject to arrange a time to sit the task. An illness misadventure form with relevant documentation must be attached and submitted within 7 days of returning to school and handed to the Head Teacher Senior Studies.
- 2.13** In the event of illness/misadventure for a Yearly Examination students/parents need to notify the school on the day of the examination. The student or parent must lodge an Illness Misadventure Form with relevant documentation attached to the Head Teacher Senior Studies on their return to school. Students who miss an examination will sit the task during the next available timeslot during the Yearly Examination period. Where no available timeslots are available, students should negotiate with the Subject or Faculty Head Teacher a suitable time to sit the task. The Senior Review Team will make all determinations concerning tasks during the Yearly Examination period.

Non-Completion of Tasks

- 3.1 Students awarded zero marks for assessment tasks totalling 50 or more of the final course assessment marks will be certified as not having satisfactorily completed the course. This means that the student will not receive an assessment mark or an examination mark for that subject.
- 3.2 Students and parents will be notified if a student receives a zero mark and opportunities will be provided for the student to meet course outcomes. Parents and students will also be made aware of potential consequences of non-completion of course outcomes.
- 3.3 Students who do not complete assessments are placed on the NESA malpractice register.

Attendance

- 4.1 Student attendance at school and in timetabled classes is an essential component of completing course outcomes.

Excessive absences from class or school may result in a notification of a Non-Award in the HSC for that subject.

4.2 Extended Personal Leave

The following procedures need to be adopted if families are planning an overseas or interstate trip. The student must realise that doing this can place the Higher School Certificate in jeopardy.

Different subjects have different prerequisites; that is things that students are meant to have done before they sit the final examination. Practical subjects require students complete a set number of hours of practical work. An extended trip would mean that the student may not meet required hours, and therefore the principal will not be able to confirm course attainment. In that case, the student may not meet the required hours. In addition, students may not be able to demonstrate course outcomes.

- 4.3 As per our attendance policy *“For students absent due to illness, injury or misadventure the school will provide ongoing educational support. For students absent due to family holidays, parents are responsible for ongoing educational programs.”*
- 4.4 Students must be available to sit Yearly Examinations on any day of the designated Trial period. Morning examinations may commence as early as 8:15am, and afternoon examinations end as late as 5:00pm.

4.5 The school supports students undertaking representative duties for the school, region, state, country, or other approved external programs. Students selected for representative duties or elite programs must apply for leave through the Deputy Principal. Parents are responsible for ongoing educational programs while students are on leave for representative duties.

4.6 Student Procedure when Travelling Overseas or Interstate

- i) Year 12 students will only be granted exemption from school in extraordinary circumstances. Parents are to apply for exemption in advance to the Year 12 Deputy Principal.
- ii) Students requesting extended leave a written request must be given to their Deputy Principal in advance.
- iii) Extended leave that clashes with assessment tasks may result in a zero being awarded for that task.

Senior Review Panel

5.1 Student malpractice in assessment tasks and examinations will be referred to the Senior Review Team. This may result in the student’s paper being cancelled. Malpractice consists of the following, but not limited to:

Unauthorised access to task or marking criteria	Unauthorised access to examination	Unauthorised use of electronic device	Possession or use of unauthorised notes
Plagiarism & aiding plagiarism	Frivolous attempt	Collusion	Unacknowledged assistance
Offensive content	Making a false claim	Possession or use of unauthorised notes	Distributing or sharing the content of examinations and in-class tasks during exclusion periods

This committee will inform the student of the outcome. The committee will consist of at least **three** of the following:

Principal or their nominee, Deputy Principal or their nominee, Careers Adviser, Head Teacher Senior Studies, the relevant KLA Head Teacher, and/or Head Teacher from another KLA.

5.2 Completion of assessment tasks must comply with the NESAs policy: “All my own work.”

Plagiarism is considered malpractice. Plagiarism is the use of the work of others without acknowledgement. Some guidelines to consider are:

- Copying someone else’s entire work and submitting it as your own is plagiarism.
- Copying passages of someone else’s work and submitting it as your own is plagiarism.
- Copying someone else’s work and substituting some words or sentences is plagiarism.
- The copying of paragraphs or sentences from someone else’s work is permitted, as long as it is appropriately acknowledged by footnoting or quotation marks.
- The copying of someone else’s ideas, including paraphrasing, is allowed, as long as it is acknowledged.

5.3 When a student wishes to lodge as “Assessment Appeal” Form (see appendix B), it must be written by the student and lodged no later than TWO school days from the grievance occurring. All documentation must accompany the appeal when it is lodged.

5.4 A student who wishes to appeal should hand the appeal to the Head Teacher Senior Studies.

5.5 Students who wish to seek a review of an illness/ misadventure appeal decision must submit this request in writing to the Year 12 Deputy Principal within 5 school days of them being notified of the illness/misadventure appeal outcome.

5.6 Acts of malpractice are placed on the NESAs malpractice register.

Appendix A

Illness and Misadventure

Sometimes students will suffer from an illness or misadventure that affects their performance or prevents them from attending an assessment task or examination. The Muirfield High School illness and misadventure policy has been designed to mirror the official policy of NESAs, ensuring fairness and transparency for all students.

Applications

Applications can be made for, but not limited to:

- illness, primarily acute conditions that affect the student's ability to perform a particular task for a limited period of time
- misadventure, including bereavement and accidents.

Limitations on Applications

You cannot submit an application on the basis of:

- difficulties in preparation or loss of preparation time; for example, as a result of an earlier illness
- loss of study time or facilities during your HSC
- long-term illnesses such as glandular fever, unless you suffer a flare-up of the condition during an examination
- the same grounds for which you received disability provisions, unless you experience additional difficulties during an examination
- misreading examination timetables or instructions
- other commitments, such as participation in external programs, work or sporting events, or attendance at examinations conducted by other education organisations (*these require prior leave approval by the Deputy Principal*).

If you are unsure whether you are eligible you should ask your Principal, Deputy Principal, or the Head Teacher Senior Studies.

It is your right and responsibility to submit an Illness/Misadventure application whenever necessary. If you are incapacitated, an application may be completed or submitted by your parent/guardian on your behalf.

It is important that you make every effort to attend examinations or submit assessment tasks on the due date, even when applying for illness or misadventure.

Application due to illness/misadventure of Higher School Certificate Assessment Task or Trial Examination

Family Name

First Name

Course

Home telephone

Closing date: Applications must be submitted to the **Head Teacher Senior Studies** and signed no later than 7 DAYS after the examination or submission date.

Assessment or examination task (and component if applicable) For example: English Standard, or English Standard Module C	Submission or examination date	Did you receive disability provisions for this course?

Have you, or will you be, lodging separate applications for other courses?

Student application

I have carefully read the information provided in The Muirfield High School Assessment Booklet and the NESAs Information Guide for Students regarding the rules and procedures for illness/misadventure for Higher School Certificate students.

I consider that my performance was affected by illness or unforeseen misadventure which occurred immediately before or during the assessment/examination.

I declare all the information I have supplied is true.

Appendix B

Muirfield High School Assessment Appeal Form

Date: _____

Student Name: _____ Subject: _____ Teacher: _____

Appeal Reason: _____

Evidence to support application: _____

Student's Signature: _____ Date: _____ Parent's Signature: _____ Date: _____

Appeal Outcome:

The appeal panel have noted the above and have decided:

- To grant this appeal
- Not to grant this appeal

Reason: _____

Deputy: _____ Signature: _____ Date: _____

Senior Review Member: _____ Signature: _____ Date: _____

Grievances and Appeals

Concerns may arise from time to time about aspects of a course. It may be about resources, facilities, another person, an assessment task, or an assessment process. **Grievances** may involve:

- An action
 - An omission
 - A situation
 - A decision
- which is reasonably judged to be
- Unfair
 - Discriminatory
 - Unjustified

Students have 2 school days from the grievance arising in which to lodge an Assessment Appeal Form (Appendix C).

For example, a student receives an assignment on a Monday, the appeal must be submitted by 2:35pm Wednesday.

The following procedure must be followed:

- a. Immediately try to clarify the situation with the class teacher involved.
- b. If the situation is unresolved, complete the Assessment Appeal Form.
- c. Submit the form, within 2 school days, to the Head Teacher Senior Studies.
- d. The Senior Review Panel will meet to adjudicate on the matter.

These procedures are consistent with NESAs requirements.

Grounds that will not be taken into consideration:

- Individual results or marks – reviews are limited to the assessment process
- Misunderstanding assessment criteria that is published on assessment notifications
- Preferencing informal oral directives over information contained in published assessment notifications
- Absences due to work placement, work experience, TAFE, overseas or interstate trips
- External tutorial instruction
- Teacher allocations
- Class placement
- Line allocation
- Assessment workload
- Illness or misadventure (see Appendix A)

HSC Assessment Schedules & Course Outcomes 2022

The schedules in this booklet **are not** official notifications of assessment tasks. The purpose of the booklet is to provide students an overview of assessment tasks, their corresponding outcomes, and an estimated timeframe for completion. Students will be given an assessment notification for each task with the assessment criteria, submission date and time clearly labelled. Any concerns regarding assessment schedules and notifications should be directed to the Head Teacher Senior Studies.

Yearly Examinations do not receive assessment notifications. Students should refer to the published HSC Examination Trial Timetable at the end of Term 2 for dates and times. The exclusion periods for Examinations will be published on the Muirfield High School Calendar. Students should be familiar with the examination formats through their course of study.

Students may undertake courses through external providers, such as TAFE. At Muirfield, all Year 11 students must undertake at least 12 school-based units for the first semester; all Year 12 students must commence the year with at least 10 school-based units, unless on an approved pathways program, and must make a serious attempt at all assessments for all courses. Requests to drop a school-based course, which results in a student studying fewer than 10 school-based units in Year 12, may be made during Term 1. The decision will be at the school's discretion, with consideration given to application, behaviour and patterns of study.

AGRICULTURE 2022

Component	Task 1	Task 2	Task 3	Task 4	Weighting %
	Farm Product Study Booklet	Effects of Light Intensity on Vegetative Yield	Technology Research Task	Trial HSC Examination	
	Farm Product Study	Plant Production	Animal Production Elective study	All topics	
	Term 4, Week 10	Term 1, Week 8	Term 2, Week 7	Term 3, Week 4	
	Outcomes assessed H3.1, H3.2, H3.3, H3.4	Outcomes assessed H1.1, H2.1, H4.1	Outcomes assessed H1.1, H2.2, H3.3 H5.1	Outcomes assessed All course outcomes	
Plant / Animal Production		20	15	15	50
Farm Product Study	20			10	30
Elective Study			15	5	20
Total %	20	20	30	30	100

Report Outcomes

12AG-1 explains the influence of physical, biological, social, historical and economic factors on sustainable agricultural production

12AG-2 describes the inputs, processes and interactions of plant production systems

12AG-3 describes the inputs, processes and interactions of animal production systems

12AG-4 assesses the general business principles and decision-making processes involved in sustainable farm management and marketing of farm products

12AG-5 critically assesses the marketing of a plant OR animal product

12AG-6 critically examines the technologies and technological innovations employed in the production and marketing of agricultural products

12AG-7 evaluates the management of the processes in agricultural systems

12AG-8 justifies and applies appropriate experimental techniques, technologies, research methods and data presentation and analysis in relation to agricultural problems and situations

12AG-9 evaluates the impact of innovation, ethics and current issues on Australian agricultural systems

Syllabus Outcomes

H1.1 explains the influence of physical, biological, social, historical and economic factors on sustainable agricultural production

H2.1 describes the inputs, processes and interactions of plant production systems

H2.2 describes the inputs, processes and interactions of animal production systems

H3.1 assesses the general business principles and decision-making processes involved in sustainable farm management and marketing of farm products

H3.2 critically assesses the marketing of a plant OR animal product

H3.3 critically examines the technologies and technological innovations employed in the production and marketing of agricultural products

H3.4 evaluates the management of the processes in agricultural systems

H4.1 justifies and applies appropriate experimental techniques, technologies, research methods and data presentation and analysis in relation to agricultural problems and situations

H5.1 evaluates the impact of innovation, ethics and current issues on Australian agricultural systems

ANCIENT HISTORY 2022

Component	Task 1	Task 2	Task 3	Task 4	Weighting %	
	Research Project (Historical Analysis) Cities of Vesuvius: Pompeii and Herculaneum	Source Analysis Personalities in their Times	Essay Historical Period	Trial HSC Examination All Topics		
	Term 4, Week 7	Term 1, Week 8	Term 2, Week 7	Term 3 Examination Period		
	Outcomes assessed AH 12-2, AH 12-5, AH 12-8, AH 12-9 AH 12-10	Outcomes assessed AH 12-3, AH 12-4, AH 12-6, AH12-7, AH 12-9	Outcomes assessed AH 12-1, AH12-2, AH12-3, AH 12-5, AH 12-7, AH 12-9	Outcomes assessed AH 12-1, AH12-3, AH 12-4, AH 12-5, AH 12-6, AH 12-7, AH 12-9, 12-10

Historical skills in the analysis and evaluation of sources and interpretations	5	5	5	5	20	
Historical inquiry and research	10	5	5		20	
Communication of historical understanding in appropriate forms	5	5	5	5	20	
Total %	25	20	25	30	100	

Report Outcomes

- AH12-1** Accounts for the nature of continuity and change in the ancient world
- AH12-2** Proposes arguments about the varying causes and effects of events and developments
- AH12-3** Evaluates the role of historical features, individuals and groups in shaping the past
- AH12-4** Analyses the different perspectives of individuals and groups in their historical context
- AH12-5** Assesses the significance of historical features, people, places, events and developments of the ancient world
- AH12-6** Analyses and interprets different types of sources for evidence to support an historical account or argument
- AH12-7** Discusses and evaluates differing interpretations and representations of the past
- AH12-8** Plans and conducts historical investigations and presents reasoned conclusions, using relevant evidence from a range of sources
- AH12-9** Communicates historical understanding, using historical knowledge, concepts and terms, in appropriate and well-structured forms
- AH12-10** Analyses issues relating to the ownership, custodianship and conservation of the ancient past

Syllabus Outcomes

- AH12-1** Accounts for the nature of continuity and change in the ancient world
- AH12-2** Proposes arguments about the varying causes and effects of events and developments
- AH12-3** Evaluates the role of historical features, individuals and groups in shaping the past
- AH12-4** Analyses the different perspectives of individuals and groups in their historical context
- AH12-5** Assesses the significance of historical features, people, places, events and developments of the ancient world
- AH12-6** Analyses and interprets different types of sources for evidence to support an historical account or argument
- AH12-7** Discusses and evaluates differing interpretations and representations of the past
- AH12-8** Plans and conducts historical investigations and presents reasoned conclusions, using relevant evidence from a range of sources
- AH12-9** Communicates historical understanding, using historical knowledge, concepts and terms, in appropriate and well-structured forms
- AH12-10** Analyses issues relating to the ownership, custodianship and conservation of the ancient past

Skills and Application of Biology concepts

Knowledge and Understanding of Biology concepts

Syllabus Outcomes

BIO11/12-1 Develops and evaluates questions and hypotheses for scientific investigation

BIO11/12-2 Designs and evaluates investigations in order to obtain primary and secondary data and information

BIO11/12-3 Conducts investigations to collect valid and reliable primary and secondary data and information

BIO11/12-4 Selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media

BIO11/12-5 Analyses and evaluates primary and secondary data and information

BIO11/12-6 Solves scientific problems using primary and secondary data, critical thinking skills and scientific processes

BIO11/12-7 Communicates scientific understanding using suitable language and terminology for a specific audience or purpose

BIO12-12 Explains the structures of DNA and analyses the mechanisms of inheritance and how processes of reproduction ensure continuity of species

BIO12-13 Explains natural genetic change and the use of genetic technologies to induce genetic change

BIO12-14 Analyses infectious disease in terms of cause, transmission, management and the organism's response, including the human immune system

BIO12-15 Explains non-infectious disease and disorders and a range of technologies and methods used to assist, control, prevent and treat non-infectious disease

BUSINESS STUDIES 2022

Component	Task 1	Task 2	Task 3	Task 4	Weighting %
	Extended Response/Research Operations	Topic Test Using Stimulus Marketing	Business Report Finance	Trial HSC Examination	
	Term 4, Week 7	Term 1, Week 9	Term 2, Week 8	Term 3, Week 3&4

Stimulus based skills		10		10	20
Inquiry and research	10		10		20
Communication of business information, ideas and issues in appropriate forms	5	5	5	5	20
Total %	20	25	25	30	100

Report Outcomes

- H1** Critically analyses the role of business in Australia and globally
- H2** Evaluates management strategies in response to changes in internal and external influences
- H3** Discusses the social and ethical responsibilities of management
- H4** Analyses business functions and processes in large and global businesses
- H5** Explains management strategies and their impact on businesses
- H6** Evaluates the effectiveness of management in the performance of businesses
- H7** Plans and conducts investigations into contemporary business issues
- H8** Organises and evaluates information for actual and hypothetical business situations
- H9** Communicates business information, issues and concepts in appropriate formats
- H10** Applies mathematical concepts appropriately in business situations

Syllabus Outcomes

- H1** Critically analyses the role of business in Australia and globally
- H2** Evaluates management strategies in response to changes in internal and external influences
- H3** Discusses the social and ethical responsibilities of management
- H4** Analyses business functions and processes in large and global businesses
- H5** Explains management strategies and their impact on businesses
- H6** Evaluates the effectiveness of management in the performance of businesses
- H7** Plans and conducts investigations into contemporary business issues
- H8** Organises and evaluates information for actual and hypothetical business situations
- H9** Communicates business information, issues and concepts in appropriate formats
- H10** Applies mathematical concepts appropriately in business situations

Skills in Working Scientifically	10	20	15	15	60
Knowledge and Understanding	10	5	10	15	40
Total %	20	25	25	30	100

Report Outcomes

Skills and Application of Chemistry concepts

Knowledge and Understanding of Chemistry concepts

Syllabus Outcomes

CH12-1 Develops and evaluates questions and hypotheses for scientific investigation

CH12-2 Designs and evaluates investigations in order to obtain primary and secondary data and information

CH12-3 Conducts investigations to collect valid and reliable primary and secondary data and information

CH12-4 Selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media

CH12-5 Analyses and evaluates primary and secondary data and information

CH12-6 Solves scientific problems using primary and secondary data, critical thinking skills and scientific processes

CH12-7 Communicates scientific understanding using suitable language and terminology for a specific audience or purpose

CH12-12 Explains the characteristics of equilibrium systems, and the factors that affect these systems

CH12-13 Describes, explains and quantitatively analyses acids and bases using contemporary models

CH12-14 Analyses the structure of, and predicts reactions involving, carbon compounds

CH12-15 Describes and evaluates chemical systems used to design and analyse chemical processes

ENGLISH ADVANCED 2022

Component	Task 1	Task 2	Task 3	Task 4	Weighting %	
	Multimodal Presentation Module A: Textual Conversations John Keats, <i>The Complete Poems (P)</i> and Jane Campion, <i>Bright Star</i>	Imaginative and Reflective Writing Module C: The Craft of Writing	Research Essay Module B: Critical Study of Literature William Shakespeare, <i>King Henry IV, Part 1</i>	Trial HSC Examination

Knowledge and understanding of course content	10	10	15	15	50	
Skills in responding to texts and communication of ideas appropriate to audience, purpose and context across all modes	15	10	10	15	50	
Total %	25	20	25	30	100	

Report Outcomes

- Reporting Statement 1** Students read complex texts for understanding, interpretation, critical analysis and pleasure.
- Reporting Statement 2** Students write sophisticated texts to communicate accurately, imaginatively, creatively and critically.
- Reporting Statement 3** Students respond to literature by evaluating cultural assumptions, values and the human condition.
- Reporting Statement 4** Students experiment with different modes of communication, including technology with an awareness of audience, purpose and context.

Syllabus Outcomes

- EA12-1** Independently responds to, composes and evaluates a range of complex texts for understanding, interpretation, critical analysis, imaginative expression and pleasure
- EA12-2** Uses, evaluates and justifies processes, skills and knowledge required to effectively respond to and compose texts in different modes, media and technologies
- EA12-3** Critically analyses and uses language forms, features and structures of texts justifying appropriateness for specific purposes, audiences and contexts and evaluates their effects on meaning
- EA12-4** Strategically adapts and applies knowledge, skills and understanding of language concepts and literary devices in new and different contexts
- EA12-5** Thinks imaginatively, creatively, interpretively, critically and discerningly to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments
- EA12-6** Investigates and evaluates the relationships between texts
- EA12-7** Evaluates the diverse ways texts can represent personal and public worlds and recognises how they are valued
- EA12-8** Explains and evaluates nuanced cultural assumptions and values in texts and their effects on meaning
- EA12-9** Reflects on, evaluates and monitors own learning and refines individual and collaborative processes as an independent learner

	Outcomes assessed EAL12-1A, EAL12-1B, EAL12-3, EAL12-5, EAL12-6, EAL12-7 Objectives C and E	Outcomes assessed EAL12-1A, EAL12-3, EAL12-5, EAL12-6, EAL12-7, EAL12-8 Objectives A and D	Outcomes assessed EAL12-2, EAL12-3, EAL12-5, EAL12-6, EAL12-9 Objective B	Outcomes assessed EAL12-1A, EAL12-3, EAL12-5, EAL12-7, EAL12-8 Objectives B, C, D and E	
Knowledge and understanding of course content	10	15	10	15	50

Report Outcomes

Objective A Through responding to and composing a wide range of texts and through the close study of texts, students will develop knowledge, understanding and skills in order to communicate through speaking, listening, reading, writing, viewing and representing.

Objective B Through responding to and composing a wide range of texts and through the close study of texts, students will develop knowledge, understanding and skills in order to use language to shape and make meaning according to purpose, audience and context.

Objective C Through responding to and composing a wide range of texts and through the close study of texts, students will develop knowledge, understanding and skills in order to think in ways that are imaginative, creative, interpretive and critical.

Objective D Through responding to and composing a wide range of texts and through the close study of texts, students will develop knowledge, understanding and skills in order to express themselves and their relationships with others and their world.

Objective E Through responding to and composing a wide range of texts and through the close study of texts, students will develop knowledge, understanding and skills in order to learn and reflect on their learning through their study of English.

Syllabus Outcomes

EAL12-1 Responds to, composes and evaluates a range of complex and sustained texts for understanding, interpretation, critical analysis, imaginative expression and pleasure

EAL12-1B Communicates information, ideas and opinions in a range of familiar and unfamiliar personal, social and academic contexts

EAL12-2 Uses, evaluates and justifies processes, skills and knowledge necessary for responding to and composing a wide range of texts in different media and technologies

EAL12-3 Identifies, selects and uses language forms, features and structures of texts appropriate to a range of purposes, audiences and contexts, and analyses and evaluates their effects on meaning

EAL12-4 Applies and adapts knowledge, skills and understanding of literary devices, language concepts and mechanics into new and different contexts

EAL12-5 Thinks imaginatively, creatively, interpretively and critically to respond to, represent and evaluate complex ideas, information and arguments in a wide range of texts

EAL12-6 Investigates and evaluates the relationships between texts

EAL12-7 Integrates understanding of the diverse ways texts can represent personal and public worlds

EAL12-8 Analyses and evaluates cultural references and perspectives in texts and examines their effects on meaning

EAL12-9 Reflects on, assesses and monitors own learning and refines individual and collaborative processes as an independent learner

Skills in responding to texts and communication of ideas appropriate to audience, purpose and context across all modes	15	20	15	50	
Total %	30	40	30	100	

Report Outcomes

Objective A Through responding to and composing a wide range of texts and through the critical study of texts, students will develop knowledge, understanding and skills in order to articulate understanding through speaking, listening, reading, writing, viewing and representing.

Objective B Through responding to and composing a wide range of texts and through the critical study of texts, students will develop knowledge, understanding and skills in order to shape meaning and craft language to express imaginative, creative, interpretive and critical responses to a range of texts.

Objective C Through responding to and composing a wide range of texts and through the critical study of texts, students will develop knowledge, understanding and skills in order to express imaginative, creative, interpretive and critical ideas based on sophisticated analysis and theorising about complex texts and values.

Objective D Through responding to and composing a wide range of texts and through the critical study of texts, students will develop knowledge, understanding and skills in order to express understanding of how cultural, historical and social contexts are represented in critical and creative texts.

Objective E Through responding to and composing a wide range of texts and through the critical study of texts, students will develop knowledge, understanding and skills in order to reflect on and evaluate their own processes of learning and creativity.

Syllabus Outcomes

EE12-1 Demonstrates and applies insightful understanding of the dynamic, often subtle, relationship between text, purpose, audience and context, across a range of modes, media and technologies

EE12-2 Analyses and experiments with language forms, features and structures of complex texts, discerningly evaluating their effects on meaning for different purposes, audiences and contexts

EE12-3 Independently investigates, interprets and synthesises critical and creative texts to analyse and evaluate different ways of valuing texts in order to inform and refine response to and composition of sophisticated texts

EE12-4 Critically evaluates how perspectives, including the cultural assumptions and values that underpin those perspectives, are represented in texts

EE12-5 Reflects on and evaluates the development of their conceptual understanding and the independent and collaborative writing and creative processes

ENGLISH EXTENSION 2 2022

Knowledge and understanding of course content	15	20	15	50	
Skills in responding to texts and communication of ideas appropriate to audience, purpose and context across all modes	15	20	15	50	
Total %	30	40	30	100	

Report Outcomes

Objective A Through responding to and composing a wide range of texts and through the critical study of texts, students will develop knowledge, understanding and skills in order to articulate understanding through speaking, listening, reading, writing, viewing and representing.

Objective B Through responding to and composing a wide range of texts and through the critical study of texts, students will develop knowledge, understanding and skills in order to craft language to shape meaning and express imaginative, creative, interpretive and critical responses to a range of texts.

Objective C Through responding to and composing a wide range of texts and through the critical study of texts, students will develop knowledge, understanding and skills in order to expressive imaginative, creative, interpretive and critical ideas based on sophisticated analysis and theorising about complex texts and values.

Objective D Through responding to and composing a wide range of texts and through the critical study of texts, students will develop knowledge, understanding and skills in order to express understanding of how cultural, historical and social contexts re represented in critical and creative texts.

Objective E Through responding to and composing a wide range of texts and through the critical study of texts, students will develop knowledge, understanding and skills in order to reflect on and evaluate their own processes of learning and creativity.

Syllabus Outcomes

EEX12-1 Demonstrates a deep understanding of the dynamic relationship between text, composer, audience and context through the conceptualisation and execution of an extended composition using appropriate mode, medium and technology

EEX12-2 Strategically and effectively manipulates language forms and features to create a substantial extended composition for a specific purpose, audience and context

EEX12-3 Applies knowledge, understanding and insight, refined through analysis, interpretation, criticism and evaluation of strategically chosen texts, to shape new meaning in an original composition

EEX12-4 Undertakes extensive independent investigation to articulate a personal perspective that explores, challenges, speculates or evaluates a significant situation, event or idea

EEX12-5 Reflects on and evaluates the composition process and the effectiveness of their own published composition

Reasoning and Communication	10	12.5	12.5	15	50
Total %	20	25	25	30	100

Report Outcomes

- MA12-1** Uses detailed algebraic and graphical techniques to critically construct, model and evaluate arguments in a range of familiar and unfamiliar contexts
- MA12-2** Models and solves problems and makes informed decisions about financial situations using mathematical reasoning and techniques
- MA12-3** Applies calculus techniques to model and solve problems
- MA12-4** Applies the concepts and techniques of arithmetic and geometric sequences and series in the solution of problems
- MA12-5** Applies the concepts and techniques of periodic functions in the solution of problems involving trigonometric graphs
- MA12-6** Applies appropriate differentiation methods to solve problems
- MA12-7** Applies the concepts and techniques of indefinite and definite integrals in the solution of problems
- MA12-8** Solves problems using appropriate statistical processes
- MA12-9** Chooses and uses appropriate technology effectively in a range of contexts, models and applies critical thinking to recognise appropriate times for such use
- MA12-10** Constructs arguments to prove and justify results and provides reasoning to support conclusions, which are appropriate to the context

Syllabus Outcomes

- MA12-1** Uses detailed algebraic and graphical techniques to critically construct, model and evaluate arguments in a range of familiar and unfamiliar contexts
- MA12-2** Models and solves problems and makes informed decisions about financial situations using mathematical reasoning and techniques
- MA12-3** Applies calculus techniques to model and solve problems
- MA12-4** Applies the concepts and techniques of arithmetic and geometric sequences and series in the solution of problems
- MA12-5** Applies the concepts and techniques of periodic functions in the solution of problems involving trigonometric graphs
- MA12-6** Applies appropriate differentiation methods to solve problems
- MA12-7** Applies the concepts and techniques of indefinite and definite integrals in the solution of problems
- MA12-8** Solves problems using appropriate statistical processes
- MA12-9** Chooses and uses appropriate technology effectively in a range of contexts, models and applies critical thinking to recognise appropriate times for such use
- MA12-10** Constructs arguments to prove and justify results and provides reasoning to support conclusions which are appropriate to the context

Knowledge and understanding of course content	10	10	15	5	40
Source based skills	10			10	20
Historical inquiry and research		5	5	10	20
Communication of historical understanding in appropriate forms		10	5	5	20
Total %	20	25	25	30	100

Report Outcomes

- MH12-1** Accounts for the nature of continuity and change in the modern world
- MH12-2** Proposes arguments about the varying causes and effects of events and developments
- MH12-3** Evaluates the role of historical features, individuals, groups and ideas in shaping the past
- MH12-4** Analyses the different perspectives of individuals and groups in their historical context
- MH12-5** Assesses the significance of historical features, people, ideas, movements, events and developments of the modern world
- MH12-6** Analyses and interprets different types of sources for evidence to support an historical account or argument
- MH12-7** Discusses and evaluates differing interpretations and representations of the past
- MH12-8** Plans and conducts historical investigations and presents reasoned conclusions, using relevant evidence from a range of sources
- MH12-9** Communicates historical understanding, using historical knowledge, concepts and terms, in appropriate and well-structured forms

Syllabus Outcomes

- MH12-1** Accounts for the nature of continuity and change in the modern world
- MH12-2** Proposes arguments about the varying causes and effects of events and developments
- MH12-3** Evaluates the role of historical features, individuals, groups and ideas in shaping the past
- MH12-4** Analyses the different perspectives of individuals and groups in their historical context
- MH12-5** Assesses the significance of historical features, people, ideas, movements, events and developments of the modern world

- MH12-7** Discusses and evaluates differing interpretations and representations of the past
- MH12-8** Plans and conducts historical investigations and presents reasoned conclusions, using relevant evidence from a range of sources
- MH12-9** Communicates historical understanding, using historical knowledge, concepts and terms, in appropriate and well-structured forms

MUSIC 1 2022

Component	Task 1	Task 2	Task 3	Task 4	Weighting %
	Core Performance and Musicology Viva Voce Presentation of Core Performance And 10-minute Musicology interview	Core Composition 2–4-minute composition portfolio and Aural Logbook	Presentation of Electives 1 & 2 Presentation of Electives1 &2	Trial HSC Examination Presentation of Elective 3 + Aural Written Examination	
	Term 4, Week 8	Term 1, Week 7	Term 2, Week 3	Term 2, Week 10 Term 3, Weeks 3 & 4	
	Outcomes assessed H6, H2, H4, H5, H10, H11	Outcomes assessed H3, H7, H8, H10, H4-H6	Outcomes assessed H1-H11 (per elective)	Outcomes assessed H1-H11 (per elective) H4, H2, H5, H6, H8, H10	
Composition Core		10			10
Performance Core	10				10
Musicology Core	10				10
Aural Core		10		15	25
Elective 1			15		15
Elective 2			15		15
Elective 3				15	15
Total %	20	20	30	30	100

Report Outcomes

H1 Performance	Performs stylistically, music that is characteristic of topics studied, both as a soloist and as a member of an ensemble
H2 Musicology / Aural	Reads, interprets, discusses and analyses simple musical scores that are characteristic of the topics studied
H3 Composition / Performance	Improvises and composes music using the range of concepts for familiar sound sources reflecting the cultural and historical contexts studied
H4 Musicology / Aural	Articulates an aural understanding of musical concepts and their relationships in a wide variety of musical styles
H5 Musicology / Aural	Critically evaluates and discusses performances and compositions
H6 Musicology / Aural	Critically evaluates and discusses the use of the concepts of music in works representative of the topics studies and through wide listening
H7 Composition / Performance	Understands the capabilities of performing media, incorporates technologies into composition and performance as appropriate to the topics studied
H8 P/C/M/A	Identifies, recognises, experiments with, and discusses the use and effects of technology in music
H9 Performance	Performs as a means of self-expression and communication
H10 P/C/M/A	Demonstrates a willingness to participate in performance, composition, musicology and aural activities
H11 P/C/M/A	Demonstrates a willingness to accept and use constructive criticism

NUMERACY 2022

Component	Task 1	Task 2	Task 3	Task 4	Weighting %
	Investigative Task: New Job, New Adventure Finance Location, Time, and Temp	Research: Alternative Olympics Metric Relationships Space and Design	Numerical reasoning: Festival Planning Numeracy in practical situations Measurement	Mathematical Thinking: Photographs- rule of thirds Data, Graphs, Tables Rates and ratio	
	Term 4 Weeks 6,7,8	Term 1, Weeks 6,7,8	Term 2 Weeks 6,7,8	Term 3 Weeks 5,6,7	
	Outcomes assessed N6- 2.3, 2.4, 2.5, 3.1	Outcomes assessed N6- 1.3, 2.2, 2.5, 3.2	Outcomes assessed N6- 2.2, 2.3, 2.5, 3.2	Outcomes assessed N6- 1.1, 2.3, 2.5, 3.1	
Total %	25	25	25	25	100

Report Outcomes

- N6-2.2:** chooses and applies efficient strategies to analyse and solve everyday problems involving metric relationships, distance and length, area, volume, time, mass, capacity and temperature
- N6-2.3:** chooses and applies efficient strategies to analyse and solve everyday problems involving data, graphs, tables, statistics and probability
- N6-2.5:** chooses and applies efficient strategies to analyse and solve everyday problems involving location, space and design
- N6-3.2:** chooses and uses appropriate technology to analyse and solve problems, represent information and communicate solutions in a range of practical contexts
- N6-2.4:** chooses and applies efficient strategies to analyse and solve everyday problems involving money and finance
- N6-2.5:** chooses and applies efficient strategies to analyse and solve everyday problems involving location, space and design
- N6-3.1:** chooses and uses appropriate technology to access, organise and interpret information in a range of practical personal and community, workplace and employment, and education and training contexts
- N6-1.3:** determines whether an estimate or an answer is reasonable in the context of a problem, evaluates results and communicates conclusions
- N6-1.1:** recognises and applies functional numeracy concepts in practical situations, including personal and community, workplace and employment, and education and training contexts

Syllabus Outcomes

- N6-2.2:** chooses and applies efficient strategies to analyse and solve everyday problems involving metric relationships, distance and length, area, volume, time, mass, capacity and temperature
- N6-2.3:** chooses and applies efficient strategies to analyse and solve everyday problems involving data, graphs, tables, statistics and probability
- N6-2.5:** chooses and applies efficient strategies to analyse and solve everyday problems involving location, space and design
- N6-3.2:** chooses and uses appropriate technology to analyse and solve problems, represent information and communicate solutions in a range of practical contexts
- N6-2.4:** chooses and applies efficient strategies to analyse and solve everyday problems involving money and finance
- N6-2.5:** chooses and applies efficient strategies to analyse and solve everyday problems involving location, space and design
- N6-3.1:** chooses and uses appropriate technology to access, organise and interpret information in a range of practical personal and community, workplace and employment, and education and training contexts
- N6-1.3:** determines whether an estimate or an answer is reasonable in the context of a problem, evaluates results and communicates conclusions
- N6-1.1:** recognises and applies functional numeracy concepts in practical situations, including personal and community, workplace and employment, and education and training contexts

PERSONAL DEVELOPMENT HEALTH AND PHYSICAL EDUCATION 2022

Component	Task 1	Task 2	Task 3	Task 4	Weighting %
	Multimodal Presentation	Research Task	In Class Extended Response	Trial HSC Examination	
	Sports Medicine	Health Priorities in Australia	Factors Affecting Performance		
	Term 4, Week 6	Term 1, Week 8	Term 2, Week 9	Term 3, Weeks 3 & 4	
	Outcomes assessed H8, H16, H17	Outcomes assessed H1, H2, H3, H4, H5	Outcomes assessed H7, H8, H11, H16	Outcomes assessed H1, H2, H3, H4, H5, H7, H8, H9, H11, H13, H14, H15, H17	
Knowledge and understanding of the factors that affect health and the way the body moves	15		10	10	35
Skills in influencing personal and community health and taking action to improve participation and performance in physical activity		15		10	25
Skills in critical thinking, research and analysis	5	10	15	10	40
Total %	20	25	25	30	100

Report Outcomes

- H1 Describes the nature and justifies the choice of Australia's health priorities
- H2 Analyses and explains the health status of Australians in terms of current trends and groups most at risk
- H3 Analyses the determinants of health and health inequities
- H4 Argues the case for health promotion based on the Ottawa Charter
- H5 Explains the different roles and responsibilities of individuals, communities and governments in addressing Australia's health priorities
- H7 Explains the relationship between physiology and movement potential
- H8 Explains how a variety of training approaches and other interventions enhance performance and safety in physical activity
- H9 Explains how movement skill is acquired and appraised
- H10 Designs and implements training plans to improve performance
- H11 Designs psychological strategies and nutritional plans in response to individual performance needs
- H13 Selects and applies strategies for the management of injuries and the promotion of safety in sport and physical activity (Option 3)
- H14 Argues the benefits of health-promoting actions and choices that promote social justice
- H15 Critically analyses key issues affecting the health of Australians and proposes ways of working towards better health for all
- H16 Devises methods of gathering, interpreting and communicating information about health and physical activity concepts
- H17 Selects appropriate options and formulates strategies based on a critical analysis of the factors that affect performance and safe participation

Syllabus Outcomes

- H1 Describes the nature and justifies the choice of Australia's health priorities
- H2 Analyses and explains the health status of Australians in terms of current trends and groups most at risk
- H3 Analyses the determinants of health and health inequities
- H4 Argues the case for health promotion based on the Ottawa Charter
- H5 Explains the different roles and responsibilities of individuals, communities and governments in addressing Australia's health priorities
- H7 Explains the relationship between physiology and movement potential
- H8 Explains how a variety of training approaches and other interventions enhance performance and safety in physical activity
- H9 Explains how movement skill is acquired and appraised
- H10 Designs and implements training plans to improve performance
- H11 Designs psychological strategies and nutritional plans in response to individual performance needs
- H13 Selects and applies strategies for the management of injuries and the promotion of safety in sport and physical activity (Option 3)
- H14 Argues the benefits of health-promoting actions and choices that promote social justice
- H15 Critically analyses key issues affecting the health of Australians and proposes ways of working towards better health for all
- H16 Devises methods of gathering, interpreting and communicating information about health and physical activity concepts
- H17 Selects appropriate options and formulates strategies based on a critical analysis of the factors that affect performance and safe participation

Artmaking	20	20	30		70
Art Criticism and Art History	5	5	5	15	30
Total %	25	25	35	15	100

REPORT OUTCOMES

M1 generates a characteristic style that is increasingly self-reflective in their photographic and/or video and/or digital practice

M2 explores concepts of artist/photographer, still and moving works, interpretations of the world and audience response, in their making of still and/or moving works

M3 investigates different points of view in the making of photographs and/or videos and/or digital images

M4 generates images and ideas as representations/simulations in the making of photographs and/or videos and/or digital images

M5 develops different techniques suited to artistic intentions in the making of photographs and/or videos and/or digital images

M6 takes into account issues of Work Health and Safety in the making of photographs and/or videos and/or digital works

CH1 generates in their critical and historical practice ways to interpret and explain photography and/or video and/or digital imaging

CH2 investigates the roles and relationships among the concepts of artist, work, world and audience in critical and historical investigations

CH3 distinguishes between different points of view and offers interpretive accounts in critical and historical studies

CH4 explores ways in which histories, narratives and other accounts can be built to explain practices and interests in the fields of photography and/or video and/or digital imaging

CH5 recognises how photography and/or video and/or digital imaging are used in various fields of cultural production

SYLLABUS OUTCOMES

M1 generates a characteristic style that is increasingly self-reflective in their photographic and/or video and/or digital practice

M2 explores concepts of artist/photographer, still and moving works, interpretations of the world and audience response, in their making of still and/or moving works

M3 investigates different points of view in the making of photographs and/or videos and/or digital images

M4 generates images and ideas as representations/simulations in the making of photographs and/or videos and/or digital images

M5 develops different techniques suited to artistic intentions in the making of photographs and/or videos and/or digital images

M6 takes into account issues of Work Health and Safety in the making of photographs and/or videos and/or digital works

CH1 generates in their critical and historical practice ways to interpret and explain photography and/or video and/or digital imaging

CH2 investigates the roles and relationships among the concepts of artist, work, world and audience in critical and historical investigations

CH3 distinguishes between different points of view and offers interpretive accounts in critical and historical studies

CH4 explores ways in which histories, narratives and other accounts can be built to explain practices and interests in the fields of photography and/or video and/or digital imaging

CH5 recognises how photography and/or video and/or digital imaging are used in various fields of cultural production

Skills in working scientifically	10	15	15	20	60
Knowledge and understanding	10	10	10	10	40
Total %	20	25	25	30	100

Report outcomes

Skills and Application of Physics concepts

Knowledge and Understanding of Physics concepts

Syllabus Outcomes

PH11/12-1 Develops and evaluates questions and hypotheses for scientific investigation

PH11/12-2 Designs and evaluates investigations in order to obtain primary and secondary data and information

PH11/12-3 Conducts investigations to collect valid and reliable primary and secondary data and information

PH11/12-4 Selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media

PH11/12-5 Analyses and evaluates primary and secondary data and information

PH11/12-6 Solves scientific problems using primary and secondary data, critical thinking skills and scientific processes

PH11/12-7 Communicates scientific understanding using suitable language and terminology for a specific audience or purpose

PH12-12 Describes and analyses qualitatively and quantitatively circular motion and motion in a gravitational field, in particular, the projectile motion of particles

PH12-13 Explains and analyses the electric and magnetic interactions due to charged particles and currents and evaluates their effect both qualitatively and quantitatively

PH12-14 Describes and analyses evidence for the properties of light and evaluates the implications of this evidence for modern theories of physics in the contemporary world

PH12-15 Explains and analyses the evidence supporting the relationship between astronomical events and the nucleosynthesis of atoms and relates these to the development of the current model of the atom

SOCIETY & CULTURE 2022

Component	Task 1	Task 2	Task 3	Task 4	Weighting %
	Research Task HSC Core Social and Cultural Continuity and Change	Oral Presentation PIP Proposal HSC core: PIP Proposal	In Class Examination Depth Study – Popular Culture Depth Study – Social Inclusion and Exclusion	Trial HSC Examination All Topics	
	Term 4, Week 8	Term 1, Week 5	Term 2, Week 8	Term 3, Weeks 3 & 4	
	Outcomes assessed H6, H7, H8, H9, H10	Outcomes assessed H1, H3, H5, H7, H9, H10	Outcomes assessed H1, H2, H3, H9, H10	Outcomes assessed H1, H3, H4, H5, H6, H9, H10	
Knowledge and understanding of course content	10	5	15	20	50
Application and evaluation of social and cultural research methodologies	10	10	5	5	30
Communication of information, ideas and issues in appropriate forms	5	5	5	5	20
Total %	25	20	25	30	100

Report Outcomes

- H1** Evaluates and effectively applies social and cultural concepts
- H2** Explains the development of personal, social and cultural identity
- H3** Analyses relationships and interactions within and between social and cultural groups
- H4** Assesses the interaction of personal experience and public knowledge in the development of social and cultural literacy
- H5** Analyses continuity and change and their influence on personal and social futures
- H6** Evaluates social and cultural research methods for appropriateness to specific research tasks
- H7** Selects, organises, synthesises and analyses information from a variety of sources for usefulness, validity and bias
- H8** Uses planning and review strategies to conduct ethical social and cultural research that is appropriate for tasks ranging from the simple to the complex
- H9** Applies complex course language and concepts appropriate for a range of audiences and contexts
- H10** Communicates complex information, ideas and issues using appropriate written, oral and graphic forms

Syllabus Outcomes

- H1** Evaluates and effectively applies social and cultural concepts
- H2** Explains the development of personal, social and cultural identity
- H3** Analyses relationships and interactions within and between social and cultural groups
- H4** Assesses the interaction of personal experience and public knowledge in the development of social and cultural literacy
- H5** Analyses continuity and change and their influence on personal and social futures
- H6** Evaluates social and cultural research methods for appropriateness to specific research tasks
- H7** Selects, organises, synthesises and analyses information from a variety of sources for usefulness, validity and bias
- H8** Uses planning and review strategies to conduct ethical social and cultural research that is appropriate for tasks ranging from the simple to the complex
- H9** Applies complex course language and concepts appropriate for a range of audiences and contexts
- H10** Communicates complex information, ideas and issues using appropriate written, oral and graphic forms

SOFTWARE DESIGN & DEVELOPMENT 2022

Component	Task 1	Task 2	Task 3	Task 4	Weighting %
	Case Study Social and Ethical Issues	Research Task Defining & Understanding the Problem, Planning & Design of Software Solutions	Project Presentation Developing a Solution Package	Trial HSC Examination	
	Term 1, Week 1	Term 1, Week 8	Term 2, Week 6	Term 3, Weeks 3 & 4	
	Outcomes assessed H1.2, H5.3	Outcomes assessed H2.1, H2.2	Outcomes assessed H5.1, H5.2, H6.1, H6.3, H6.4	Outcomes assessed H1.3, H3.2, H4.2, H4.3, H6.2	
Knowledge and understanding of course content	10	5	5	30	50
Knowledge and skills in the design and development of software solutions		20	30		50
Total %	10	25	35	30	100

Report Outcomes

- H1.1** Explains the interrelationship between hardware and software
- H1.2** Differentiates between various methods used to construct software solutions
- H1.3** Describes how the major components of a computer system store and manipulate data
- H2.1** Explains the implications of the development of different languages
- H2.2** Explains the interrelationship between emerging technologies and software development
- H3.1** Identifies and evaluates legal, social and ethical issues in a number of contexts
- H3.2** Constructs software solutions that address legal, social and ethical issues
- H4.1** Identifies needs to which software solutions are appropriate
- H4.2** Applies appropriate development methods to solve software problems
- H4.3** Applies a modular approach to implement well-structured software solutions and evaluates their effectiveness
- H5.1** Applies project management techniques to maximise the productivity of the software development
- H5.2** Creates and justifies the need for the various types of documentation required for a software solution
- H5.3** Selects and applies appropriate software to facilitate the design and development of software solutions
- H6.1** Assesses the skills required in the software development cycle
- H6.2** Communicates the processes involved in a software solution to an inexperienced user
- H6.3** Uses and describes a collaborative approach during the software development cycle
- H6.4** Develops and evaluates effective user interfaces, in consultation with appropriate people

Syllabus Outcomes

- H1.1** Explains the interrelationship between hardware and software
- H1.2** Differentiates between various methods used to construct software solutions
- H1.3** Describes how the major components of a computer system store and manipulate data
- H2.1** Explains the implications of the development of different languages
- H2.2** Explains the interrelationship between emerging technologies and software development
- H3.1** Identifies and evaluates legal, social and ethical issues in a number of contexts
- H3.2** Constructs software solutions that address legal, social and ethical issues
- H4.1** Identifies needs to which software solutions are appropriate
- H4.2** Applies appropriate development methods to solve software problems
- H4.3** Applies a modular approach to implement well-structured software solutions and evaluates their effectiveness
- H5.1** Applies project management techniques to maximise the productivity of the software development
- H5.2** Creates and justifies the need for the various types of documentation required for a software solution
- H5.3** Selects and applies appropriate software to facilitate the design and development of software solutions
- H6.1** Assesses the skills required in the software development cycle
- H6.2** Communicates the processes involved in a software solution to an inexperienced user
- H6.3** Uses and describes a collaborative approach during the software development cycle
- H6.4** Develops and evaluates effective user interfaces, in consultation with appropriate people

VISUAL ARTS 2022

Component	Task 1	Task 2	Task 3	Task 4	Weighting %
	<p>Presentation</p> <p>Investigations of artmaking practice presentation</p> <p>Development of body of work – presentation on investigations of artmaking practice evident in Visual Arts Process Diary (VAPD) including experiments with materials, written reflections and explanations, research about related artists’ practice and planning.</p>	<p>Essay</p> <p>Art criticism and art history</p> <p>In-class essay based on class work and/or case study content Section I and Section II style questions</p>	<p>BoW</p> <p>Finished body of work to be submitted</p> <p>NESA completion and submission date TBA</p>	<p>Trial HSC Examination</p> <p>Art criticism and art history</p> <p>Section I: All questions Section II: 1 question</p>	
	Term 1, Week 2	Term 2, Week 6	Term 3, TBA	Term 3, TBA	
	<p>Outcomes assessed</p> <p>H1, H2, H3, H4</p>	<p>Outcomes assessed</p> <p>H7, H8, H9</p>	<p>Outcomes assessed</p> <p>H1, H2, H3, H4, H5, H6</p>	<p>Outcomes assessed</p> <p>H7, H8, H9, H10</p>	
Artmaking	15		35		50
Art Criticism and Art History		20		30	50
Total %	15	20	35	30	100

Artmaking Outcomes

H1 Practice Initiates and organises artmaking practice that is sustained, reflective and adapted to suit particular conditions **H2** Explains the development of personal, social and cultural identity

H2 Conceptual Framework Applies their understanding of the relationships among the artist, artwork, world and audience through the making of a body of work

H3 Frames Demonstrates an understanding of the frames when working independently in the making of art

H4 Representation Selects and develops subject matter and forms in particular ways as representations in artmaking

H5 Conceptual Strength and Meaning Demonstrates conceptual strength in the production of a body of work that exhibits coherence and may be interpreted in a range of ways

H6 Resolution Demonstrates technical accomplishment, refinement and sensitivity appropriate to the artistic intentions within a body of work

Art Criticism and Art History Outcomes

H7 Practice Applies their understanding of practice in art criticism and art history

H8 Conceptual Framework Applies their understanding of the relationships among the artist, artwork, world and audience

H9 Frames Demonstrates an understanding of how the frames provide for different orientations to critical and historical investigations of art

H10 Representation Constructs a body of significant art histories, critical narratives and other documentary accounts of representation in the visual arts

VET COURSE ASSESSMENT

Assessment in VET is **competency** based.

In a competency-based course, assessment of competencies is standards-referenced. This means that a participant's performance is judged against a prescribed standard contained in each unit of competency, not against the performance of other participants.

A participant is judged either 'competent' or 'not yet competent'. This judgment is made on the basis of a range of evidence, which may be in a variety of forms and may take place at any time during the course although the regional tasks should be submitted by the due dates as these are submitted online to region.

The HSC examination is optional in this course. There is no formal assessment that counts towards the HSC.

The trial HSC examination will assess the core units and will only be used for assessment if the student is sick or undergoes a misadventure on the day of the HSC examination.

Full attendance at work placement is a **mandatory** component of the course.

Assessment Tasks for Certificate II in Agriculture AHC20116 COURSE: HSC Primary Industries – Agriculture Competency Assessment Schedule		Cluster C	Cluster D	Cluster F	Cluster G	Cluster H	Yearly Exam
		Monitor water supplies	Basic Nursery Work	Work effectively In the industry	Fencing, weather and communication	Growing plants OR Livestock work	
		Week 11 Term 4	Week 11 Term 4	Week 10 Term 1	Week 10 Term 2	Week 10 Term 3	
Code	Unit of Competency						HSC Examinable Units of Competency
AHCLSK209	Monitor water supplies	X					
AHCSOL202	Assist with soil or growing media sampling and testing		X				
AHCNSY202	Care for nursery plants		X				
AHCWRK209	Participate in environmentally sustainable work practices			X			
AHCWRK204	Work effectively in the industry			X			
AHCWRK201	Observe and report on weather				X		
AHCINF202	Install, maintain and repair farm fencing				X		
AHCWRK205	Participate in workplace communications				X		
Animal option	Please check boxes selected						
AHCLSK211	Provide feed for livestock					<input type="checkbox"/>	
AHCLSK206	Identify and mark livestock					<input type="checkbox"/>	
Plant option	Please check boxes selected					OR	
AHCNSY201	Pot up plants					<input checked="" type="checkbox"/>	
AHCNSY203	Undertake propagation activities					<input checked="" type="checkbox"/>	

Depending on the achievement of units of competency, the possible qualification outcome is a Certificate II in Agriculture AHC20116 or a Statement of Attainment towards a Certificate II in Agriculture AHC20116.

Schools may schedule exam items in preparation for the HSC. These do not form part of the RTO assessment requirements.

The assessment components in this course are competency based. This means that students need to demonstrate that they have gained and can apply the specific knowledge and skills of each unit of competency. Competency assessment is graded as “not yet competent” or “competent”. In some cases, other descriptive words may be used leading up to “competent”. A course mark is not allocated.

Assessment Tasks for Certificate II Kitchen Operations SIT20416 Course: HSC Hospitality – Kitchen Operations Stream Competency Assessment Schedule		Cluster D	Cluster E	Cluster F	Trial HSC Exam
		Food Glorious Food	Working in Industry	Cooking in the Commercial Kitchen	
		Week: 5 Term: 1	Week: 7 Term: 2	Week: 8 Term: 3	Week: 3 & 4 Term:3
Code	Unit of Competency				HSC Examinable Units of Competency
SITHCCC003	Prepare and present sandwiches	X			
SITHCCC006	Prepare appetisers and salads	X			
BSBWOR203	Work effectively with others		X		
SITHIND002	Source and use information on the hospitality industry		X		
BSBSUS201	Participate in environmentally sustainable work practices		X		
SITHCCC005	Prepare dishes using basic methods of cookery			X	
SITHCCC011	Use cookery skills effectively			X	

Depending on the achievement of units of competency, the possible qualification outcome is a Statement of Attainment towards Certificate II in Kitchen Operations SIT20416 or a Certificate II in Kitchen Operations SIT20416.

Schools may schedule exam items in preparation for the HSC. These do not form part of the RTO assessment requirements.

The assessment components in this course are competency based. This means that students need to demonstrate that they have gained and can apply the specific knowledge and skills of each unit of competency. Competency assessment is graded as “not yet competent” or “competent”. In some cases, other descriptive words may be used leading up to “competent”. A course mark is not allocated.

Assessment Tasks for SIS30519 Certificate III in Sport Coaching Course: HSC – Sport Coaching Competency Assessment Schedule		Cluster C 2nd Elective	Cluster D	Cluster E
		2nd Elective	Coaching the Individual	Next Level Coaching
		Week: 7 Term: 4	Week: 7 Term: 1	Week: 10 Term: 2
Code	Unit of Competency			
SISXCAI009	Instruct strength and conditioning techniques	X		
SISSSCO003	Meet participant coaching needs		X	
BSBRK401	Identify risk and apply risk management processes		X	
SISSSCO012	Coach sports participants up to an intermediate level			X

Depending on the achievement of units of competency, the possible qualification outcome is a SIS30519 Certificate III in Sport Coaching **or** a Statement of Attainment towards a SIS30519 Certificate III in Sport Coaching.

The assessment components in this course are competency based. This means that students need to demonstrate that they have gained and can apply the specific knowledge and skills of each unit of competency. Competency assessment is graded as “not yet competent” or “competent”. In some cases, other descriptive words may be used leading up to “competent”. A course mark is not allocated.

Life Skills Courses

Each student accessing Life Skills outcomes and content will be assessed on their achievement of the selected outcomes identified through the collaborative curriculum planning process. The syllabus outcomes and content form the basis of learning opportunities for students.

Assessment should provide opportunities for students to demonstrate achievement in relation to the selected outcomes. Assessment can occur in a range of situations or environments such as the school and wider community.

There is no requirement for formal assessment of Life Skills outcomes. Stage 6 Life Skills courses do not have external examinations.

Students may achieve Life Skills outcomes either **independently** or **with support**.

Students can demonstrate independent achievement of outcomes either:

- without adjustments
- with adjustments.

These adjustments should enable the student to demonstrate achievement during assessment opportunities on the same basis as their peers. The collaborative curriculum planning process will have determined these adjustments. The type of adjustments will vary according to the needs of the student and the requirements of the activity.

Each student accessing Years 11–12 Life Skills course/s needs to demonstrate achievement of one or more outcomes for Life Skills course to be credentialed for the HSC.

Need more information?

Visit <https://educationstandards.nsw.edu.au/wps/portal/nesa/11-12/Understanding-the-curriculum/syllabuses-a-z> for more detailed information regarding HSC course outcomes, syllabus requirements and support documents.
