Year 8 - PDHPE 2024

TERM 2

Theory: Coping Skills

In this unit, students will propose and develop strategies that will effectively manage their personal health and safety. Students develop and evaluate their decision-making skills as they explore scenarios simulating a range of situations which may affect an individual's wellbeing and safety.

Practical: Move and Groove

Throughout the term, students will engage in and perform a range of movements which explore rhythm and expression. Students will create basic phrases in groups and pairs which respond to a stimulus and will adapt their movement skills to a range of compositional problem solving tasks.

UNIT OVERVIEW

ASSESSMENT

TIMING
10
Weeks

THEORY:

- Coping with loss
- Stages of grief
- Identifying actions and influences on mental wellbeing
- Understanding mental health
- Depression and Anxiety
- Dealing and responding to life's challenges
- Seeking help
- Skills that enhance resilience and wellbeing
- Being supportive
- The importance of health literacy skills
- Assessing health information

PRACTICAL:

- Dance
- Net Games, e.g. Volleyball and Pickleball

Task Number: 2
Nature of Task: In Class Examination
Percentage: 50%
Week: 2
Reported: Semester 1

TERM 3

Theory: Get Smart About Drugs

In this unit, students will explore the positive actions of individuals that can contribute to the health, safety, wellbeing and participation in physical activity levels of the wider community. Students will learn to effectively manage their own health and safety when confronted with choices about drugs and alcohol, developing strategies to support their own and others' wellbeing.

Practical: Court Games

Throughout the term, students will engage in a range court-based games. Students will use feedback to create adaptations to movement skills to make them more effective in different contexts. Students will create new rules, strategies, and tactics to improve movement and evaluate the effects these have on performance. Students will include, assist and lead others during physical activity.

TIMING
10
weeks

UNIT OVERVIEW

THEORY:

- Types of drugs and their effects
- Long and short term effects of alcohol consumption
- Long and short term effects of smoking
- Actions to assist friends under the influence of alcohol, smoking and drugs
- Health consumerism
- Factors influencing health choices of young people
- Health messages

PRACTICAL:

- Court Games, e.g. Netball, Basketball

ASSESSMENT

Task Number: 3
Nature of Task: Drug Exposition
Percentage: 50%
Week: 6
Reported: Semester 2

Task Number: 4
Nature of Task: Cumulative skill, application, effort and knowledge of Court Games
Percentage: 50%
Week: Throughout Semester 2
Reported: Semester 2

TERM 4

Theory: Responding in Emergencies

In this unit, students will demonstrate basic first aid principles and strategies, eg DRSABCD, management of asthma, allergies and anaphylaxis. Students will learn to respond in emergency situations and strategies to minimise risk.

Net Games and Invasion Games

Throughout the term, students will engage in a range of invasion and net based games and sports. Students will use feedback to create adaptations to movement skills to make them more effective in different contexts. Students will create new rules, strategies and tactics to improve movement and evaluate the effects these have on performance. Students will include, assist and lead others during physical activity.

TIMING
10
weeks

UNIT OVERVIEW

ASSESSMENT

THEORY:

- Saving a life
- DRSABCD action plan
- Hypothetical accidents
- Variations of CPR

PRACTICAL:

- Invasion Games, e.g. Touch, Soccer
- Striking Games , e.g. Cricket, Tee Ball and Swedish Longball
