National Art School BFA Exhibition Opening Night

Friday 11 December. 6–10pm to 20 December

Entrance from Forbes Street

You can experience the exhibition in the NAS Gallery, Rayner Hoff Project Space, Building 25 Project Space and Open Studios throughout the iconic National Art school campus. This is a wonderful night to celebrate the contemporary, the new and the emerging as our BFA cohort is released into the world. The next new art by the best new BFA artists is on offer throughout the evening and every day until 20 December. Meet our artists and enjoy a night of music, food and pop up bars, and you can purchase works from Australia's #nextgennas.

'I Was Told I Could Never Sustain Myself With A Creative Career'

'In high school, I was warned about picking "too many creative subjects". I was told it wouldn't prepare me for work or that my career expectations were unrealistic. Yet 5 years out of school with a string of professional positions under my belt, I've learnt firsthand that almost every single job requires a creative mindset'.

RMIT - DSC end-of-year student showcases

To 30 December

Each year RMIT comes to life in a unique way as graduating students across our creative schools showcase their amazing work. And this year it's all virtual! RMIT University and the Colleges of Design and Social Context, and Vocational Education, host a collection of End of Year Student Showcases that feature the work of our graduating students from across creative disciplines, including art, architecture, design and fashion.

This year showcases make the jump to a virtual setting to celebrate the achievements of our graduating students, who display their work and all they've achieved across their studies to family, friends, the public and industry. It's a chance for students to rejoice, reflect and make new connections.

Meet the Scientists ANSTO

From fusion to climate change. A topic for every budding scientist is available!

Choose from our list of research topics and let your students lead a 30 minute Q&A session with our ANSTO experts. Dial-in from school via Zoom for this free videoconference with our scientists.

This **learning program** is designed to address:

- Science as a Human Endeavour and Science Inquiry Skills content descriptors for Years 5-10.
- Skill outcomes for Year 11 and 12 science subjects.

Our staff are experienced science communicators and can discuss ANSTO's research with primary or secondary classes at an appropriate level of detail.

Please ensure your students do some pre-reading about the research topic and come prepared with questions to ask during the session. We also ask that teachers send us a copy of the student questions the day before, so we can let the scientists know what to expect. Teachers must be present during the session with their students.

<https://www.ansto.gov.au/education/secondary/videoconferences/meet-an-expert>

CSIRO Registration of Interest - Aboriginal and Torres Strait Islander Traineeships

CSIRO, the Commonwealth Scientific and Industrial Research Organisation, is Australia's national science agency and one of the largest and most diverse research agencies in the world. We seek to have a profound and positive impact on the most significant challenges and opportunities facing Australia and humanity.

We believe that Indigenous Australians have extraordinary contributions to make across cultural, economic and scientific domains. The Aboriginal and Torres Strait Islander Traineeship Program is an initiative of the CSIRO Indigenous Engagement Strategy which seeks to increase the employment of Australian Aboriginal and Torres Strait Islander peoples within our organisation. Through this strategy, CSIRO aims to enhance the educational, employment, training and career development opportunities for people of Aboriginal and/or Torres Strait Islander descent.

CSIRO is actively seeking Aboriginal and Torres Strait Islander people who are interested in working in a dynamic and supportive organisation. Our traineeships last approximately one to two years (depending on the course of study) and include paid, structured on the job training while you complete a Nationally Accredited Qualification relevant to

your position. The course fees are paid for by CSIRO, and you will be given time to attend courses to complete this qualification while working.

Locations: Various - CSIRO has sites located all around Australia

Salary: \$23,459 to \$26,001 plus up to 15.4% superannuation

Duration: 1 to 2 years (depending on the course of study)

<https://jobs.csiro.au/job/Various-Registration-of-Interest-Aboriginal-and-Torres-Strait-Islander-Traineeships/520725900/>

CSIRO - Plan ahead for your Work Experience in your Degree

Calling all tertiary students! Complete your compulsory work placement with us and work alongside leading scientists in an area of interest, and learn from the best while build long-lasting professional networks.

About our industrial traineeships

Bring to life what you're learning in your degree in a real world environment and rub shoulders with some of the greatest scientific minds that our country has to offer!

Here's what you need to know

Industrial traineeships provide an opportunity for undergraduate students required to complete a placement as a compulsory component of their tertiary study to immerse themselves in an innovative environment to gain valuable skills and experience that you won't find anywhere else.

Traineeship placements are usually for 3-6 months and available across a range of research and non-research functions. The number of placement opportunities varies each year and is based on projects on offer at the time of application.

TAFE NSW –Apprenticeships & Traineeships

Here is a great quick summary all about apprenticeships, traineeships, school based apprenticeships and pre-apprenticeship courses. It covers how long they take and who can apply for these opportunities.

From Barangaroo to the Light Rail project, from WestConnex to new residential builds, New South Wales is a state in construction. We need apprentices. We need to build a strong pipeline of skilled tradespeople.

The NSW Government recognises this and has now made it even easier for you to become (or employ) an apprentice. They're investing over \$285 million to fund the qualification fees for 100,000 new apprentices. So what are you waiting for? Become an apprentice today.

<https://www.tafensw.edu.au/study/types-courses/apprenticeships-traineeships>

70,000 Reasons Why Students Can Opt for Fee-Free Traineeships

With the NSW Government committing to paying the course cost for 70,000 new traineeships, there's never been a better time to enrol at TAFE NSW in a government funded traineeship course.

Traineeships combine on-the-job training with formal study to give you the skills and experience employers are looking for. Generally taking around 1-2 years to complete, traineeships offer you the opportunity to earn a salary while you learn.

[TAFE NSW offers a range of traineeship courses](#) covering many industries including early childhood, health and allied services, business, IT, hospitality and warehouse operations.

Traineeships are a proven pathway to well-paid jobs in a diverse range of careers. In NSW, traineeships are also fee-free*

RMIT Landscape Architecture End of Semester Virtual Exhibition

To 30 December

Online exhibition of student work produced in the Bachelor of Landscape Architectural Design and the Master of Landscape Architecture. RMIT Landscape Architecture warmly invites you to the opening event of the Semester 2 2020 End of Semester Exhibition Online!

Please join us at 5:30pm on Thursday 12 November for an Exhibition Launch, Awards Announcements and Online Launch Party. Students and staff from the Bachelor of Landscape Architectural Design and the Master of Landscape Architecture welcome family, friends and colleagues from across the planet to join on the evening and visit the exhibition. This semester has seen all of the Bachelor of Landscape Architectural Design and Master of Landscape Architecture continue with online delivery. This exhibition will take you on a world-wide tour of design studio work from both programs. A highlight of the exhibition is the wonderfully varied collection of individual design projects from graduating MLA students, demonstrating and celebrating the contribution that landscape architecture can make to our world.

OTHER FIELDS

8 dream careers that are real

Yes, targeting skills shortages and skilling for the digital revolution are good. But maybe thinking outside the box can also work. Maybe you can do it all!

Targeting skills shortages and future-proofing your students is one thing but there's merit in also guiding their career ambitions that are outside of the box too. Here's eight careers that are real and how your students can achieve them at TAFE NSW:

University of Sydney - HSC preparation (years 10-12). The smart way to prepare for your HSC. Summer Study Days

Maths, English, Biology, Chemistry, Business Studies, Legal Studies, Economics and more.

The HSC syllabus has changed. We've responded, with an all-new program of over 60 HSC preparatory courses led by brilliant educators who will get you focused on the content that matters.

Each intensive HSC holiday workshop is a valuable complement to your school studies. Students receive a solid induction into HSC exam technique, and critical subject-matter knowledge.

- Response to new syllabus – our teachers are HSC veterans, with real knowledge of what examiners will be looking for in the all-new HSC syllabus.
- Shorter, more accessible format – responding to public demand for shorter courses, we now offer all essential subject information in workshops of just one and two days each.
